Sète - France

27th Ion Channel Meeting

Plenary lecture : Jean-Gaël Barbara (Paris, France)

The concept of ion channel: history from before to after the discovery of the patch clamp technique.

Symposia:

Structure, function and physiology of ion channels: input from invertebrate model (organized by Marc Gielen):

Jean-Louis Bessereau (Lyon, France)

Erhu Cao (Salt Lake City, USA)

Steeve Thany (Orléans, France)

Gap junction and hemi-channels, from physiology to pathology (organized by Nathalie Guérineau) :

Marc Mesnil (Poitiers, France)

Nathalie Rouach (Paris, France)

Mathieu Vinken (Brussels, Belgium)

Role of ion channels in vascular functions (organized by Jean-François Quignard) :

Fabrice Dabertrand (Burlington, USA)

Eric Honoré (Valbonne, France)

Zhao Lan (London, UK)

Ionic selectivity in the channel function (organized by Franck Chatelain) :

Mark Alkema (Boston, USA)

Crina Nimigeau (Marseille, France)

Stephen J. Tucker (Oxford, UK)

Intracellular ion channels and their regulation (organized by Stéphane Sébille) :

Paolo Bernardi (Padova, Italy)

Vincent Jacquemond (Lyon, France)

Enrique Jaimovich (Santiago de Chile, Chile)

Organizing committee:

Hélène Guizouarn (Chair) - Franck Chatelain - Emmanuel Deval - Marc Gielen - Nathalie Guérineau - Eric Hosy - Céline Marionneau - Jean-François Quignard - Jessica Sabourin - Stéphane Sébille - Wojciech Szponarski
