

Open position for a postdoctoral researcher

The Department of Pharmaceutical and Pharmacological Sciences of the Vrije Universiteit Brussel-Belgium (VUB) is looking for a motivated postdoctoral researcher to support the European project “*PANACHE: production of next generation modulators of pannexins and connexins as novel therapeutics in the treatment of inflammatory cardiovascular, hepatic and joint diseases*” (<http://www.panache-project.eu/>).

Job description

- o You will be involved in an innovative research project focused on the testing of new drugs for the treatment of liver disease.
- o You will perform animal experiments, cell cultivation experiments and molecular biology analyses.
- o Your scientific work should result in several manuscripts published in international peer-reviewed journals.
- o You will assist in the supervision of doctoral thesis students and master thesis students.
- o You will participate in writing grant proposals.
- o You will assist in the organization of practical courses for students in bachelor and master in pharmaceutical sciences.

Profile

- o You have a doctoral degree in pharmaceutical sciences, (bio)medical sciences, veterinary sciences, bioengineering sciences or equivalent.
- o You have a master degree in pharmaceutical sciences, (bio)medical sciences, veterinary sciences, bioengineering sciences or equivalent.
- o You have a FELASA category C certificate.
- o You have ample experience with setting up animal models of liver disease.
- o You are a dynamic and flexible person.
- o You are able to work independently, yet as a team member, and accurately.
- o You have excellent presentation and communication skills both written and oral.
- o You have a good knowledge of the English language both written and oral.

Offer

- o A young, dynamic and stimulating work environment.
- o A yearly renewable contract as a full-time postdoctoral researcher at the VUB until 29 February 2024.
- o Start date: as soon as possible.
